Name :………………..	Family name :……………….	Class :………………………

Five years Exam (2024 – 2025)

Doctor is a Nobel Job !

A doctor is a person who helps sick people feel better. Doctors study for many years to learn how to treat different illnesses. They work in hospitals and clinics, and sometimes even visit people's homes. They listen carefully to their patients. Doctors use tools like stethoscopes and thermometers to cheek how the body is doing. They give medicines, or treatement to stop the pain. Doctors save us to feel healthy again.
